Overall Length:

10.000 inches

Overall Height:

3.125 inches

Overall Width:

3.312 inches

Component Type And Quantity:

1 terminal and 1 plug and 1 resistor and 1 post and 1 printed wiring board and 1 base and 2 cover and 1 chassis

Special Features:

Mounting method: bolt and chassis; component quantity: 12; mounting configuration: nine 0.187 in. Diameter mtg holes irregularly spaced;
fsc application data: radio navigation nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
