Overall Length:

6.670 inches

Overall Height:

1.000 inches

Overall Width:

4.875 inches

Component Type And Quantity:

1 bracket and 8 capacitor and 1 connector and 1 diode and 24 resistor

Special Features:

Plugs in holder and retained by 2 turn-lock fasteners spaced 4.187 in. C to c; printed circuit board 1; clamp, tube 3; test point 2; electron tube 3; indicators, azimuth range, radar, nonairborne exc. Fire control and guided missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
