Body Diameter:

6.187 inches

Body Length:

6.859 inches

Body Height:

0.032 inches

Mounting Configuration:

Fourteen 0.218 in. By 0.921 in. Slots irregularly spaced

Special Markings:

Marked danger high voltage tighten all hold down screws to insure proper cooling caution use type 7204 tubes power amplifier 544-9283-00 bias, adj, alc, tgc, tests v1 tests v27 light hole access, upper v1 and xv1, lower v2 and xv2, b1, b2, c4 through c9, c12, c14 through c20, c47, e1 through e3, f11, j1 through j5, k1 k2, l3, thru l6, l8, p3, r2, rs, r20, r26, r38, s1 through s5, t1

Material:

Aluminum

Material:

Aluminum

Fsc Application Data:

Radio set, radio, except navigation and home types, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T23700
