Body Length:

5.800 inches

Body Width:

1.850 inches

Body Height:

1.704 inches

Mounting Configuration:

Seven 0.115 in. Diameter holes irregularly spaced

Special Markings:

Marked amplifier module, radio frequency, 528-0183-006, mcn

Material:

Aluminum

Surface Treatment:

Chromate plated

Fsc Application Data:

Radio set, radio navigation airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T23700
