Overall Length:

11.000 inches

Overall Height:

0.750 inches

Overall Width:

5.000 inches

Component Type And Quantity:

5 capacitor

Special Features:

Plug-in mtg; contact strip 1, electron tube 3, lead elect. 11, printed circuit board 1, resistor-fixed composition 20, resistor-variable 2, socket electron tube 3; jetds name: generator pulse; jetds type no. 0-704/ups-1; radar, nonairborne exc. Fire control and guided missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
