Overall Length:

3.532 inches

Overall Height:

2.375 inches

Overall Width:

2.813 inches

Component Type And Quantity:

3 insulator

Special Features:

Major components: component board 3; terminal board 1; component quantity: 7; mounting method & configuration: slot, three holes and two slots irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
