Overall Length:

6.003 inches

Overall Height:

0.986 inches

Overall Width:

4.456 inches

End Application:

Integrated electronic central

Component Type And Quantity:

9 capacitor and 1 chassis and 14 diode and 4 insulator and 12 resistor and 1 sleeving and 1 terminal and 6 transistor and 1 wire

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
