Overall Length:

9.000 inches

Overall Height:

3.000 inches

Overall Width:

6.000 inches

End Application:

Receiver-transmitter, radio, electronic identification, airborne

Special Features:

Chassis, elec equip 2; component board assembly 2; transformer 1; meter, time totalizing 1; two no. 10/0.190 in./-32 thd mtg holes spaced 4.625 in. C to c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
