Overall Length:

6.876 inches

Overall Height:

0.750 inches

Overall Width:

4.560 inches

Component Type And Quantity:

5 transistor and 1 printed wiring board and 9 diode

Special Features:

Connector mtg; 2 keying slots; 22 male contacts spaced 0.156 in. C to c; capacitor, fixed mica 9; extractor card 1; jacktip 2; resistor, fixed composition 19

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511I0
