Overall Length:

18.906 inches

Overall Width:

8.000 inches

End Application:

5820-00-919-5362, radio set

Usage Design:

Monitors the klystron and control voltages

Mounting Configuration:

Eighteen 0.188 in. Diameter mtg holes on 3.22 in. By 2.602 in. Mounting centers

Panel Material:

Aluminum

Surface Treatment:

Enamel

Supplementary Features:

Contains all of the power amplifier input power circuit breakers

Surface Treatment:

Enamel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T122-b
