Overall Length:

11.000 inches

Overall Height:

5.000 inches

Overall Width:

6.000 inches

Component Type And Quantity:

17 capacitor and 4 choke and 1 switch and 7 semiconductor and 3 filter and 1 oven and 16 transistor

Special Features:

Joint electronics system designation name: modem subassembly; joint electronics system designation model: mx-7375/g; plug-in mtg; crystal unit 2; 1020 cps; 4 thumb screws on 4 in. X 10 in. Mtg ctrs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
