Overall Length:

11.000 inches

Overall Height:

5.000 inches

Overall Width:

6.000 inches

End Application:

Modem subassembly

Component Type And Quantity:

17 capacitor and 4 choke and 3 filter and 1 oven and 46 resistor and 2 switch and 7 semiconductor and 16 transistor

Special Features:

2550 cps; crystal unit 2; mounting method: plug-in type; component qty: 96; joint electronics type designation system item name: modem subassembly; joint electronics type designation system item type number: mx-7384/g; mounting configuration: 4 thumbscrews on 4.000 in.By 10.000 in.Mtg centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
