Overall Length:

4.875 inches

Overall Height:

1.375 inches

Overall Width:

3.125 inches

Component Type And Quantity:

2 capacitor and 11 diode and 31 resistor and 1 cover and 1 frame and 4 tube

Special Features:

Mounting method: plug-in mtg; component quantity: 50; mounting configuration: mtd by standard 23-pin connector; fsc application data: radar sets, fire control and guided missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
