Overall Length:

5.300 inches

Overall Height:

0.423 inches

Overall Width:

3.690 inches

Component Type And Quantity:

1 printed wiring board and 8 insulator and 20 resistor and 8 diode and 4 transistor

Special Features:

Mounting method: spring tension; component quantity: 41; mounting configuration: 0.064 in.D by 3.250 in.Lg; fsc application data: radio, except navigation, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
