Overall Length:

7.000 inches

Overall Height:

0.781 inches

Overall Width:

4.500 inches

End Application:

Tactical imagery interpretation facility an/tsq-43

Component Type And Quantity:

35 pin

Special Features:

Major components: circuit board 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
