Inclosure Material:

Aluminum

Overall Height:

3.000 inches

Frequency Rating:

716.0 megahertz

Overall Diameter:

1.500 inches

Power Output Rating:

0.6 watts

Power Takeoff Method:

Capacitor coupled

Tuning Facility:

Provided

Fsc Application Data:

Radio and television communication equipment, except airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T213-c
