Overall Length:

9.125 inches

Overall Height:

3.125 inches

Overall Width:

5.875 inches

Component Type And Quantity:

1 printed wiring board and 3 capacitor and 17 diode and 5 transistor and 1 relay and 18 resistor and 2 transformer and 1 handle

Special Features:

Connector and guide mtd w/pcb contacts and frt panel screws; test jack2 2, potentiometer 2, frt panel 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
