Overall Length:

4.875 inches

Overall Height:

3.000 inches

Overall Width:

3.500 inches

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Operating Control Method:

Automatic

Control Type:

Local

Circuit Construction Type:

Solid state

Fsc Application Data:

Visual landing aids

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
