End Application:

F-15 aircraft

Component Type And Quantity:

23 capacitor and 20 diode and 3 inductor and 4 printed wiring board and 6 relay and 54 resistor and 6 transistor

Special Features:

Usage design: logic relay switching assembly, rf transmitter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
