Overall Length:

14.620 inches

Overall Height:

5.750 inches

Overall Width:

8.120 inches

Component Type And Quantity:

1 plate and 3 hub and 1 control and 1 knob and 3 capacitor and 1 connector and 1 receptacle and 1 indicator and 1 meter and 9 resistor and 5 switch and 2 mixer and 1 transformer and 1 board

Special Features:

Mounting configuration: unthreaded holes; component type and quantity: dial 3, calibration assembly 1; component quantity: 121; mounting configuration: nine 0.281 in.Dia mtg holes unequally spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
