Component Type And Quantity:

4 capacitor and 1 chassis and 1 coil and 4 diode and 1 filter and 1 reactor and 2 rectifier and 9 resistor and 3 transformer

Special Features:

Major components: filter box assembly 1; inverse and overload circuit 1; mod delay and power control 1; prf generator and range 1; relay, vacuum 3; thyration 1; component quantity: 34; mounting method: holes for screws

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
