**End Application:**

M14g-b05697

**General Description:**

Diameters 0.9549 in. And 2.3038 in., operating life 2000 hours , vibration curve ii, shock 15g for 11 milliseconds, altitude sea level to 75, 000 feet, relative humidity to 95 percent without condensation, temperature minus 18 degrees c to plus 54 degrees c

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
