General Description:

O/a lg in. 3.100; o/a w in. 2.200; o/a h in. 3.220; mounting method captive screw 4; input power volts dc +15, 400ma maximum and -15, 50ma maximum and +24, 300ma surge, 100ma steady state; input-output impedance ohms 50; center frequency electrically tunable from 6300 to 7400 megahertz; connector rf input and output sma female; operating temp degrees celsius -32 to +65 deg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
