Overall Length:

4.804 inches

Overall Height:

0.813 inches

Overall Width:

1.180 inches

Operating Temperature Range:

+0.0/+90.0 degrees celsius

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Identification Designator:

721764-2-05869

Inclosure Type:

Encased

Operating Control Method:

Automatic

Installation Design:

Mechanical

Control Type:

Remote

Circuit Construction Type:

Solid state

Precious Material And Location:

Electrodes gold

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
