Ac Voltage Rating:

117.0 volts

Frequency Rating:

60.0 hertz

Electrical Power Source Relationship:

Self-contained

Usage Design:

Controls sludge level position and operation

Monitoring Method:

Electronic

Input Signal Type:

Ultrasonic

Phase:

Single

Special Features:

20 ft double coaxial w/pvc sheath cable, sensor ultrasonic, type 316 heavy duty stainless steel construction water tight, 10 watts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T121-a
