End Application:

Communication central an/tyq-3a

General Description:

Consists of panel control 1, mount voltage regulator 1, rack modular mtg 29, chassis 1, hanger cable 3, jacks 48, connectors 20, switch toggle 3, switch push illuminated 92, meter audio 1, speaker 1, signaling device 1, circuit card 1, integrated circuit 1, resistors 16, diode 368, capacitor 2, transformer audio 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
