Special Features:

Generates precision time signals by 1.0 mhz sine wave; produces time signal in days, hours, minutes, and seconds; generates time tick per second, time of event pulse, and bcd parallel time code output to drive displays; oper pwr rqmts 115 v ac; 60 hz; single phase; o/a dim. 22.0 in. L; 19.0 in. W; 5.5 in. H; rack mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
