End Application:

5895-01-159-9026

Functional Description:

Digital magnetic tape system operator panel guide

General Description:

Raluminum alloy 5052-h32 qq-a-250/8; chromate surface treatment mil-c-5541 class 1a; 90.0 degree angle; right and left side flange h
0.360 in.; matl 0.063 in. Thk; 2 mtg holes 0.141 in. Diameter located on tabs on right end

Type/model Designation:

C-10553/ash-33

Fsc Application Data:

Recorder-reproducer, signal data

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
