Electrical Power Source Relationship:

Operating

Operating Frequency:

Between 20.000 megahertz and 500.000 megahertz

Special Features:

Built-in preselector; full buss interface; controller addressable memory; step scan capability; keep alive circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T199-c
