Overall Height:

7.000 inches

Overall Width:

6.500 inches

End Application:

Data processing system an/gyq-3 (v)

Special Features:

length: 6.500 in. ; free standing

Functional Description:

Provides the capability to switch between any two of these formats: rs-232rs-422, mil-188c, and mil-188c modifie (streamliner) ; can change polarity of individual lines within the incoming signal stream

Supplementary Features:

Rs-232, rs-242, mil-188c, and modifiedmil-188c inputs & outputs; up to 100k baud rate & switch selectable; 117 +/- 5 vac, single phase, 48-62 hz; designedfor fixed ground installation

Type/model Designation:

J-4402/g

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A17600
