Overall Length:

11.000 inches

Overall Height:

7.500 inches

Overall Width:

3.000 inches

End Application:

5895-01-239-6547

Mounting Configuration:

Four 0.190-32 unf-2b x 0.31 dp insert holes

Special Features:

Radioactive materal 3o microcuries promethium (61)

Functional Description:

9-band transmitter/receiver limiter assembly with replaceable bulbs

Radioactive Content:

Contains radioactive material

Radionuclides Data:

150.000 microcuries tritium (1) h-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T198-a
