Overall Height:

5.250 inches

End Application:

Peripheral upgrade project/defense program

Input Signal Quantity:

4

Input Impedance Rating:

75.0 ohms and 20000.0 ohms

Special Features:

Mounts in standard 19 inch instrumentation rack

Specification Data:

70143-mil-std-130 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A541g0
