Average Life Measurement:

Not rated

End Application:

An/fps-115 pave paws radar set

Inclosure Type:

Encased

Installation Design:

Module

Circuit Construction Type:

Solid state

Functional Description:

Translates data from central processing unit to usable data for local oscillator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
