End Application:

Crazyhorse

Component Quantity:

98

Component Document Origin:

Industrial

Document Source:

94117

End Item Source:

94117

Joint Electronics Type Designation System Item Type Number:

An/urr-75

End Item Name:

Surveillance information processing center, and test set flight line

Usage Location:

Communications zone

Functional Description:

Provides collection and locating capability for airborne reconnaissance

Security Classification:

Unclassified

Supplementary Features:

Unmanned mode: mounted in 4 racks; manned mode: mounted in 5 racks; 28 vdc, 110 vac, 1 phase; designed for installation in modified rc-12g military aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
