NSN 5895-01-279-8517

Radio Transmitting Set - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5895-01-279-8517

Ac Voltage Rating:
Between 208.0 volts and 440.0 volts
End Application:
Communication system 5895-01-268-4587zr
Electrical Power Source Relationship:
Operating
nstallation Design:
Fixed
Emission Type:
A9 and f9
Operating Frequency:
2.000 megahertz and 29.999 megahertz
Phase:
Three
Cognizant Service:
Jsaf
Supplementary Features:
Vheight 78in; width 32in; depth 40in; freq increment 10hz; internal modes cw ame lsb usb isb fm fsk; external mode teletypewriter, facsimile;
chan mem 100chan cap with comp exciter parameters; fsk keyer front-panel selected shifts: 85, 170, 425, 850hz; power output 10kw pe (two
one), 10kw avg (single tone); 2.5kw average (am carrier); audio input m26dbm to p10dmb at 600ohm; mic input -56dbm at 150ohm; vswr
op to 3: 1, protected beyond this level; power 208, 230, 380, 440vac p/m10pct 3 phase, 47-63hz, 26kva
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
Yes - demil/mli
Filg:
Г199-с
