Functional Description:

Inject dc current or voltage into a rf circuit without affecting the flow of rf through the main transmission path

General Description:

Smodule; 1.58 in. L; 0.50 in. H; 0.38 in h; 1 male connector; 1 female connector; 1 bias terminal; 1 ground terminal; rf power 25 watts
3.0 kw peak; frequency range 1.0-5.0 ghz; rf impedance 50 ohms; dc bias input 1 amp

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
