Average Life Measurement:

Not rated

End Application:

An/urq-33

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Module

Circuit Construction Type:

Solid state

Special Features:

Electrostatic discharge sensitive

Functional Description:

Detector, low level, module

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
