Case Material:

Aluminum alloy

Maximum Voltage Rating In Volts:

115.0 ac

End Application:

Weather support unit

Inclosure Type:

Encased

Terminal Location:

Back

Power Source:

External

Terminal Type And Quantity:

8 pin

Maximumlength:

19.200 inches

Maximumwidth:

19.000 inches

Maximumheight:

3.500 inches

Functional Description:

Computer controlled switcher

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A31700
