Ac Voltage Rating:

Between 120.0 volts and 220.0 volts

End Application:

Deterministic time division multiplexer (dmniiib)

Joint Electronics Type Designation System Item Name:

Ac power module

Electrical Power Source Relationship:

Operating

Special Features:

Supplied with accessory kit; power cord; 2 spare fuses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T187-d
