Overall Length:

19.000 inches

Overall Height:

7.600 inches

Overall Width:

6.500 inches

End Application:

Adis kg84

Modem Type:

Channel

Criticality Code Justification:

Feat

Special Features:

Operating power reqmts-115 vac, 10 400 hz; emi design, airborne qualified to mil-e-5400, multi-tone modem, emp hardened; provides 16 data tones for bit synchronous data transmission at 2400 baud or less; provides a wide variety of modulation; error correction and diversity functions to maximize link reliability and to match distant end modems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T187-d
