Overall Length:

9.370 inches

Overall Height:

6.250 inches

Overall Width:

4.650 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

400.0 hertz

Joint Electronics Type Designation System Item Name:

Helicopter

Joint Electronics Type Designation System Item Type Number:

Mh-60k and mh-47e

Signal Type:

External

Phase:

Single

Functional Description:

Designed to modify and distribute blanking pulses from seven separate sources

Purchase Description Identification:

97953-1714000g1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T187-f
