**Overall Length:**

9.370 inches

**Overall Height:**

6.250 inches

**Overall Width:**

4.650 inches

**Ac Voltage Rating:**

115.0 volts

**Frequency Rating:**

400.0 hertz

**Joint Electronics Type Designation System Item Name:**

Helicopter

**Joint Electronics Type Designation System Item Type Number:**

Mh-60k and mh-47e

**Signal Type:**

External

**Phase:**

Single

**Functional Description:**

Designed to modify and distribute blanking pulses from seven separate sources

**Purchase Description Identification:**

97953-1714000g1

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T187-f
