Overall Length:

4.200 inches

Overall Height:

3.010 inches

Overall Width:

2.700 inches

Average Life Rating:

8760.0

Average Life Measurement:

Hours

Average Life Rating In Hours:

8760.0

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Mechanical

Circuit Construction Type:

Solid state

Fsc Application Data:

Frequency converter assembly, meterological

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
