Overall Length:

8.000 inches

Overall Height:

2.700 inches

Overall Width:

4.600 inches

Operating Temperature Range:

-18.0/+50.0 degrees celsius

End Application:

5895-01-325-3156 system control an/tyq-4 (v) 1

Voltage In Volts And Current Type:

12.6 dc

Special Features:

Case material: plastic; environmental protection: moisture resistance and shock; connector mfg code: 81349; connector mfg p/n: ms27467t9b35p; storage temp range: cm40.0/p71.0; inclosure type: encased; terminal location: front end; power source: external: wattage rating in watts: 4.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A514a0
