Overall Height:

0.145 inches

Overall Width:

Between 0.797 inches and 0.827 inches

Operating Temperature Range:

-54.0/+71.0 degrees celsius

End Application:

E-2c (peculiar)

Basic Shape Style:

Rectangular or square

Frequency Per Channel:

10.0 megahertz operating channel and 20.0 megahertz operating channel

Impedance Rating Per Channel:

50.000 ohms operating channel

Connection Type And Location:

Pin left side and pin right side

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
