Overall Length:

2.390 inches

Overall Height:

1.110 inches

Overall Width:

0.565 inches

Operating Temperature Range:

-20.0/+75.0 degrees celsius

End Application:

Fleet electronics warfare support group

Basic Shape Style:

Rectangular or square

Maximum Operating Altitude Rating:

40000.0 feet

Circuit Construction Type:

Solid state

Fsc Application Data:

Mixer amplifier

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
