End Application:

Satellite readout setup

Special Features:

Distribution of signals is provided by the datum model 9610 timing terminal units; there will be three configurations of these units in order to ensure ample number of singal outputs to meet the requirements for the timing equipment; the configurations are for 10mhz and irig-b signals the datum model 9610-7148, for the 1 pps (with two 3-line toy and wiring to accommodate additional irig-b) the datum model 9610-7149, and the datum model 9610-7150 for the 3-line toy; model 9610-7150 will also be used in the mpf/stste configuration with a model 9610-7151 for other output configurations

Functional Description:

Selected item: cage 31160 p/n 9610-7150

Fsc Application Data:

148a643-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A17600
