Signal Voltage Rating Per Channel:

5.000 volts output

Overall Gain:

3000.0 milliamperes

Pulse Peak Amplitude Per Channel:

60.000 volts output channel

External Dc Operating Voltage In Volts:

20.0 single voltage and 60.0 single voltage

Special Features:

Dc to dc; low profile, 0.46 in. High; 85 pct efficient; 3 to 1 input range; triple output protected

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
