Average Life Measurement:

Not rated

End Application:

Afscn esmc

Inclosure Type:

Encased

Installation Design:

Mechanical

Circuit Construction Type:

Solid state

Frequency Per Channel:

1.750 gigahertz operating channel and 1.850 gigahertz operating channel

Attenuation In Decibels:

0.4

Functional Description:

Hybird six-way combiner

Supplementary Features:

Isolation 16.0 db

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
