**Average Life Measurement:**

Not rated

**Basic Shape Style:**

Irregular

**Inclosure Type:**

Encased

**Installation Design:**

Top of cabinet/counter

**Circuit Construction Type:**

Solid state

**Frequency Per Channel:**

1.0 gigahertz operating channel and 18.0 gigahertz operating channel

**Operating Ac Frequency In Hertz:**

50.0 single voltage and 60.0 single voltage

**Functional Description:**

Extends the coverage of the r-110, r-110b, r-1250a or other wide range receivers to 18ghz

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A32200
